The unsubstantial nature of the improvements entails a heavy burden on the industry and explains the high charges for maintenance and repairs and for depreciation, which together amount to nearly 5 cents a head. Until the industry can be put on a more permanent footing it will apparently be impossible to reduce this item. The investment for equipment is an important item in the United States, being on an average about 45 per cent of the total investment in improvements and equipment. The equipment is of two classes, that which is used in connection with the direct care of the sheep and that which is used in cultivating and harvesting crops for the sheep or in providing for the needs of the employees. The equipment comprises such items as horses and pack animals, harness, saddles, freight wagons, camp outfits, including specially fitted Up herders wagons, tents, etc. Horses form an important part of the equipment, being required for hauling provisions long distances and as mounts for the men. Many flock owners economize by raising their own horses. The maintenance of the equipment in this country is a constant source of...
