MICROWAVE DIELECTRIC STUDIES ON MODIFIED MGTIO3-CATIO3 COMPOSITES

SPS Jun 2014, 2014. Taschenbuch. Book Condition: Neu. 220x150x12 mm. This item is printed on demand - Print on Demand Neuware - The development of microwave communication systems requires materials which can be used as dielectric resonators in filters, antennas and oscillators at microwave frequencies in radar detectors, cellular telephones and global positioning satellite devices. Dielectric Resonators are inevitable component in microwave telecommunication devices. To meet the requirements for use in such practical applications, the materials should possess stringent properties...

Reviews

I actually started off reading this article ebook. It is written in simple phrases instead of hard to understand. Once you begin to read the book, it is extremely difficult to leave it before concluding.

-- **Dessie Witting**

Absolutely among the best publication I have at any time go through. It is definitely basic but shocks from the 50 % of the book. I discovered this book from my i and dad advised this publication to find out.
