

Interactions Between Physics and Dynamics of Solar System Bodies

Filesize: 4.01 MB

Reviews

This publication is worth getting. it was writtern really flawlessly and valuable. Its been designed in an exceedingly easy way and is particularly only right after i finished reading this ebook through which in fact altered me, affect the way i believe.

(Lester Ebert)

INTERACTIONS BETWEEN PHYSICS AND DYNAMICS OF SOLAR SYSTEM BODIES

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the International Astronomical Symposium held in Pléneuf-Val-André (France) from June 21 to June 28, 1992 | Proceedings of the International Astronomical Symposium held in Pléneuf-Val-André (France) from June 21--28, 1992 | Fans of "Asterix the Gallic" know well that the only fear of people in Brittany is that the sky falls upon their head. So it must have been a shock for them (the fans of Asterix) to learn that a horde of Physicists and Dynamicists (some of them being actually Roman - ils sont fous ces Romains!) invaded the bay of Saint-Brieuc and spend a full week conjuring all the nastiness that the sky has in reserve, revelling in the horrors hidden beyond the blue dome; they talked with delight about "asteroids", "comets" and "meteor streams"; they grinned at the idea of "artificial satellites", these pots and pans of space always ready to fall upon you; some of them said strange things about the Moon, the planets, and evoked the "rings" of Saturn or of some other of their gods. One evening, a Roman from Pisa went as far as cornering some inhabitants in the large hut they used for their witchcraft and filled them with terror by describing the fate of the poor dinosaurs victims of a particularly nasty asteroid (or was it a comet?). You will be surprized to learn that Bretons did not exact a spectacular revenge for these offenses. On the contrary. | Modelling the outcomes of high-velocity impacts between small solar system bodies.- A comparison between 2D and 3D wavelet analysis method for asteroid family dynamical study.- Asteroid "clans": super-families or multiple events?.- Catastrophic fragmentation and formation of families: preliminary results from a new numerical model.- Structure of the asteroid belt for small members.- The...
