ROMAN SILVER COINS: A PRICE GUIDE (3RD REVISED EDITION)

Rotographic Publications. Paperback. Book Condition: new. BRAND NEW, Roman Silver Coins: A Price Guide (3rd Revised edition), Richard Plant, Christopher Henry Perkins, For the first time, the most commonly encountered silver Roman coins can be inexpensively identified and some idea of value can be gained. Whether you are setting out to form a collection of every emperor or are already an experienced Roman Coin collector, you will not be able to put this book down! The line drawings of most obverse types mean that the legend is clear and readable in the book, and it makes a great aid to identification, as does the alphabetical list of emperors/empresses in the back of the book. This book includes an identification guide for republican coins, instructions on cleaning Roman silver coins and a list of Roman mint town mintmarks. It also includes an alphabetical list of Emperors/Caesars/Empresses and information of Roman coin grading. The book is ordered chronologically, and with the introduction of different coin types clearly mentioned, together with some historical notes, it also gives an easy to follow explanation of the Roman silver coinage and how it changed over 750 years.
