Extensive guideline! Its such a great go through. It is definitely basic but surprises in the 50 % of the pdf. It is extremely difficult to leave it before concluding, once you begin to read the book.

You're a step ahead of most people. The average citizen turns a blind eye to disaster preparedness and is largely unprepared to handle all but the most minor of emergency situations. Do you really want to take a chance that could cost you and your family your lives? The first thing most victims say is, I never thought it would happen to me. If not, you'll be forced to scavenge for scraps or beg for help, along with hundreds of thousands of others who couldn't be bothered to prepare. The following topics are covered in this helpful and easy to read book: What hunkering down is and why it's preferred over bugging out. The disasters you should start prepping for.
