

Psychology for the Curious: Teach Yourself

By Nicky Hayes

Hodder Stoughton General Division, United Kingdom, 2010. CD-Audio. Book Condition: New. Unabridged. 190 x 134 mm.

Language: English . Brand New. Is this the right book for me?

More than just a straight audiobook, this pack offers a unique introduction to the world of psychology. In a series of structured discussions our panel of four leading experts will guide you through all the key areas of interest, including growth and development, learning, the unconscious and living with others. Whether you're a complete beginner or a student wanting a convenient way to recap before your exams they are guaranteed to hold your attention as they explore exactly why we are the way we are. Ideal for downloading onto an iPod or mp3 player, and with a booklet to help you recap on key ideas and specialist phrases, *Psychology for the Curious* means you can learn wherever and however you want. *Psychology for the Curious* includes: Chapter 1: Why bother with psychology? Psychology and common sense The need for a scientific approach The influence of behaviourism The emergence of modern psychology Chapter 2: Sense, stories and social learning The malleability of memory Confabulation Narratives and scripts Chapter 3: Who am I?...

Reviews

It is great and fantastic. Better then never, though i am quite late in start reading this one. Your life period will likely be transform once you comprehensive reading this book.
